

FISHER

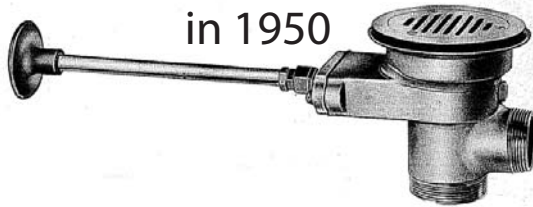

MANUFACTURING COMPANY

Commercial Faucets Since 1936

New Design...NOT so new

Fisher Gate Valve Introduced
in 1950

T&S Brass Gate Valve Introduced
in 2010

DRAIN KING™

Why Fisher?...

- Stainless Steel Ball Valve- same design used for natural gas where NO LEAKS are tolerated
- Stainless Steel ball rides on 2 TEFLON seals to assure sealing
- Less moving parts, typical of any ball valve
- 1 1/2" and 2" outlet threads, no adapters required
- Overall 24 styles to choose, from basic to prison packages
- Less packaging...Environmentally friendly and less time to install on a job site
- 75 years of leading industry design
