

Put a **LOCK** on your
“High-End”
without affecting your
“Bottom Line”.

Put A LOCK ON Your VALUABLES... Not Your BUDGET.

Install your own security system with New Age Security Fences. Designed to keep your epicurean products secure, in ANY atmosphere, our fences are ideal for backroom, cooler and freezer installations.

Custom built to meet your specific cooler/needs, our Security Fences are built **TOUGH** with heavy duty aluminum extrusions and bolted together with stainless steel hardware.

Slotted panel construction keeps individuals out, without hindering the flow of air or light into the space.

Door is easily padlocked for security.

Constructed of Primary grade, rust proof aluminum.

GUARANTEED
rust & corrosion free

Security Fence STANDARD PARAMETERS

In an effort to simplify quoting security fences, "standard" units will fall between these parameters:

Unit Must Be **STRAIGHT**

No TOPS

No CORNERS

No ANGLED PANELS

If the fence does not fall within the listed parameters, it will have to be quoted on a per fence basis.

Note: When requesting a Security Fence, we need the WIDTH & HEIGHT of the opening for the fence along with the HINGE POSITION (left or right). If there are special conditions such as a Ceiling Mounted Condenser or some other object that would require the fence to be modified, we need these dimensions and we would also have to quote the fence.
