Keep Meats in the Red, Profits in the Black!

XtraLife Meat Case

Keep Meats Red and Fresh Longer!

Increases Profits by Enhancing Shopper Appeal.

*Reduces Bacterial Growth by Providing Lower,
More Consistent Temperatures.*

IR Ingersoll Rand

Why XtraLife?

By keeping your meats red and fresh longer, XtraLife attracts shoppers, builds shopper loyalty and increases sales and profits for your meat department. Shoppers will rely on your store for fresh, red meat and come back again and again.

XtraLife air shelf technology enables:

- Products that appear fresh and appealing to shoppers.
- Lower energy costs than meat cases with a traditional configuration.
- Reduced costs associated with spoilage.

The patent-pending air shelf design creates a sequential air curtain that lowers and tightens product temperatures, keeping meats fresher longer.

Keep Meats i

How Does XtraLife Work?

Hussmann has designed a new patent-pending air shelf that is included in every XtraLife Excel multi-deck meat case. The XtraLife shelf works as a sequential air curtain, enabling the case to run at lower, tighter temperatures without freezing your products and reducing bacterial growth on meats. With XtraLife, products continue to look fresher longer.

XtraLife air flow

XtraLife Uses Less Energy

XtraLife cases are up to 18% more energy efficient than the traditional configuration for high-efficiency meat cases when operated at similar product temperatures. Compared to standard efficiency meat cases, the energy savings can be as high as 37%.

In addition:

- Product temperatures are more consistent.
- Peak temperatures are much lower.
- Energy costs are significantly reduced.

Operating Cost Per Year – AHRI Verification Test

XtraLife Meat Case Works!
Test conducted in lab under ambient room conditions of 75°F at 55% RH.

Profits in the Red, Costs in the Black!
