VACUUM PACKAGE MACHINES

Model 550A

**FEATURES**

Berkel Models 450A and 550A are reliable floor model vacuum package machines designed to meet most high-volume foodservice portion control, product storage and food retail needs. The units offer a spacious stainless steel chamber, powerful, high quality pump and two seal bars that provide a high integrity double seal with electric cut-off. Both models offer an anaerobic gas flush to maintain product color in the vacuum package, extend shelf life and/or to provide a pillow-pack seal to protect the product. Units are simple to operate and maintain.

- 450A** Single chamber, two 19" seal bars
- 550A** Single chamber, two 25" seal bars

STANDARD FEATURES

- 450A floor model with a stainless steel housing and single 20" (508 mm) x 27½" (699 mm) x 9½" (241 mm) chamber; 550A floor model with a stainless steel housing and single 28" (711 mm) x 28" (711 mm) x 8" (203 mm) chamber.
- Model 450A includes two 19" (483 mm) seal bar; Model 550A includes two 25" (635 mm) seal bars; provide high integrity double sealing with electric cut-off.
- Powerful, high quality 63 m³/h (450A) or 100 m³/h (550A) Busch pump and vacuum dial gauge.
- 1-speed, 3 H.P. (450A), 5 H.P. (550A) motor, totally enclosed, permanently lubricated ball bearings, thermally protected.
- Furnished in 220/60/3, 9.5 amp (450A), 14.5 amp (550A), AC, ETL listed.
- Vacuum intervals of 1 to 99 seconds.
- Gas flush for the addition of an anaerobic gas mixture and/or pillow-pack seal.
- Simple to operate electronic, touch pad controls with nine storable programs.

ACCESSORIES

- Air assist
- Soft air
- 12" Chamber (550A)
