#### SHORT FORM SPECIFICATIONS:

**Duke Worktables - Mixer Stands.** Top shall be constructed of 14 gauge, 300 Series stainless steel, with bull nose corners and straight edges. Legs to be 1-5/8" diameter with galvanized leg sockets welded to hat channels. Galvanized legs to have plastic bullet feet; stainless steel legs to have stainless steel feet. Also available mounted on NSF approved 5" diameter swivel casters, two with locks, in lieu of adjustable feet. Adjustable undershelf to be constructed of heavy gauge galvanized or stainless steel with aluminum die-cast corners to form tight sanitary contact with legs and lock in place with set screws to any height user desires. If shelf is adjusted to less than 6" from floor unit will not be NSF approved (on stationary models only). Optional utensil rack (#595) shall be constructed of 1-5/8" diameter stainless steel tubing with six (6) 3" stainless steel rods welded to post. Overall height is 50" above top of stand. Utensil rack can only be ordered at time mixer stand is ordered. When fitted with utensil rack, mixer stand will have stainless steel legs and feet as standard. Shipped knocked down with instructions for quick, easy assembly.
