

GLO-RAY® DESIGNER BUFFET WARMERS

Models GR2BW-24, -30, -36, -42, -48, -54, -60, -66, -72

Hatco Glo-Ray® Designer Buffet Warmer is designed to safely keep food at optimum serving temperatures.

Combining state-of-the-art design with performance, these buffet warmers place the focus on the product while holding and protecting food. The modern design is perfect for front-of-the-house use, with Designer powdercoating that blends into any décor.

FLEXIBILITY

Ideal for holding hot food at kitchen work areas, waitress pick-up stations, or customer serving points.

The Designer series warmers come standard with black inset panels. Choose from six other color options to blend the warmer with any décor, or choose a unit in one of seven Designer colors. Non-standard colors are non-returnable.

QUALITY

The following features assure the finest performance for years to come:

- Choose from seven Designer color inset panels that enhance any décor, with the option of an entire unit in color as well.
- All models feature a thermostatically-controlled hardcoated heated base to extend the holding times of most food, and a 6' (1829 mm) cord and plug set.
- Prefocused infrared top heat bathes entire holding surface, especially the edges where heat loss is the greatest.
- Shatter-resistant incandescent lights enhance product display while safeguarding food products from bulb breakage.
- Sturdy plexi-glass sneeze guards provide a safe environment when serving food.

Model GR2BW-30 with Designer color inset panels and accessory food pans

Model GR2BW-30 in optional Designer color with accessory food pans
