

TRIPLE-SPLIT MODEL # SCCB-TS

SPECIFICATIONS

The Continental Bakery Triple-Split SCCB-TS Series is a three section bakery display case consisting of a refrigerated self-service lower section, a refrigerated operator serve mid section and non-refrigerated service upper section. The lower section has a hemmed edge removable deck pan to contain spills. A glass shelf separates the mid and bottom sections for better visibility of product. The upper section is non-refrigerated creating a more versatile display case.

Available lengths: 48" 60" 72"

Available depths: 34"

Available heights: 55"

Electrical & Plumbing locations

Conforms to UL Standard 471, and NSF Standard 7; Certified To CSA Standard C22.2 No.120

1. SCCB60R-TS and SCCB72R-TS require a floor drain. No evaporation pan is available.
2. All Remote and Glycol units must be run to a floor drain at time of installation.
3. The SCCB-TS merchandiser is designed for use in stores where temperature and humidity do not exceed 75 degrees F and 55% R.H. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioners, ovens, etc. will disrupt the case's air curtain and refrigerated zone within. Any adverse field conditions stated above will void warranty.

RPI in line with it's current policy to continually improve it's product reserves the right to change materials and specifications without notice.
