MODELS	PROOFERS AND RETARDER PROOFERS				
MODELS	PW PROOFERS	RPW RETARDER/PROOFERS			
FEATURES & BENEFITS	 Baxter's modular design lets you custom-fit your proofer to your rack capacity requirements or into available space Eye level controls for heat/humidity with 4 timers Patented air flow system utilizes two 6" fans to force air in a dual circular pattern that ensures even proofing Humidification system uses a flash spray system spraying water onto a heated metal plate that delivers consistent moisture 	Space-saving combination eliminates the need for additional equipment by combining all the features of a proofing cabinet and a retarder into one unit Modular design facilitates a custom fit to your space and your needs Eye level controls for heat/humidity with 4 timers Each retarder/proofer is built to utilize a remote or existing refrigerator system Stainless steel construction for ultimate durability			

Typically proofing capacity is twice the baking capacity.
